CRITICAL PROCESS SUPPLY CHAIN OVERSIGHT

for Aviation, Defense & Space

Mitigate risks.

Validate performance.

Ensure compliance.

What is Nadcap®?

Nadcap is an industry-managed program bringing together experts from the aviation, space, and defense industries along with government agencies to improve global supply chain management and assess compliance to industry standards and customer requirements.

By joining forces, Nadcap subscribers develop consensus-driven and collaborative approaches to critical process supply chain oversight.

Only the best companies in the supply chain achieve Nadcap accreditation. To attain accredited status, companies successfully undergo a rigorous audit to validate their compliance to industry standards and customer specifications. Accreditation is a significant achievement available to both Nadcap Subscribers and Suppliers in the aviation, defense, and space industries.

Nadcap is administered by the not-for-profit Performance Review InstituteSM, the world leader in facilitating collaborative supply chain oversight programs, quality management systems approvals and professional development in industries where safety and quality are shared values.

Critical Process Accreditations

Nadcap fulfills its mission by establishing auditing requirements for supplier accreditation and defining operational program criteria related to the following critical processes:

- Additive Manufacturing
- Aero Structure Assembly
- Aerospace Quality System
- Chemical Processing
- Coatings
- Composites
- Conventional Machining as a Special Process
- Elastomer Seals
- Electronics - Cable and Harness Assemblies
- Electronics - Printed Board Assemblies
- Electronics - Printed Boards
- First Article Inspection
- Fluid Distribution Systems
- Heat Treating
- Materials Testing Laboratories
- Measurement and Inspection
- Metallic Materials Manufacturing
- Non Metallic Materials Manufacturing
- Non Metallic Materials Testing
- NonDestructive Testing
- Nonconventional Machining
- Sealants
- Surface Enhancement
- Welding

Coming in 2026

- ✓ Counterfeit Mitigation
- ✓ Cyber Security of Physical Products

Nadcap® Advantages

Subscriber Benefits

1. Participate in the development and augmentation of industry-consensus Nadcap audit criteria
2. Repurpose capital and resources toward value-added activities by reducing redundant OEM audits
3. Benefit from more in-depth, technically superior critical process audits
4. Engage with industry OEMs and Suppliers to collaboratively address critical process quality challenges
5. Increase bottom line profit as a direct result of improved standardization

Supplier Benefits

1. Collaborate with OEMs and peer suppliers to develop industry consensus audit criteria
2. Save time and money by eliminating redundant audits
3. Realize better profits by increasing yields and decreasing scrap rates
4. Demonstrate to OEMs your commitment to absolute quality and safety
5. Raise the reputation of your company by achieving high, industry recognized standards
