

Quarterly News Update

Please find below the latest updates from PRI Registrar, as we aim to keep you informed of service developments and information that is relevant to your ongoing certification.

Remote auditing set to continue

PRI Registrar has conducted over 2,200 remote audits and the feedback we have received from clients has been overwhelmingly positive. Thank you for your partnership over the last year in adapting to the impacts of COVID-19, enabling us to maintain your certifications.

We are continuing to provide remote auditing in line with industry guidance, where requested and justified, as we monitor the impacts of COVID-19 and related industry requirements. For our Aerospace clients, IAQG is supporting remote auditing through to the end of 2021. [IAQG Covid-19 Information](#)

Final stages of accreditation for ISO 27001

We are excited to be in the final stages of gaining accreditation to be able to provide ISO/IEC 27001: 2013 Information Security Management System (ISMS) certification. This will be of importance to our clients, for protecting company reputation, reducing risk, supporting business continuity and complying with data privacy regulations.

ISO 27001 specifies the requirements for establishing, implementing, maintaining and continually improving an information security management system within the context of the organization, also including requirements for the assessment and treatment of information security risks. The requirements are applicable to all organizations, regardless of type, size or nature.

Congratulations to Herb Wilson of LCF Systems Inc.

Herb Wilson, General Manager of LCF Systems Inc, is the latest winner of a \$250 gift card after completing our post-audit Client Customer Satisfaction Survey. Responses to this survey helps us to understand how we are doing, ensuring we continue to provide you with the best service. It only takes up to five minutes to complete, and guarantees that your name is entered into the monthly drawing.

Terms & Conditions update

Please note that we have modified our Agreement Terms and Conditions to include specifics related to our services and other requirements, in line with our expanded service offering. Please [click here](#) to review our current terms and conditions. Changes include:

- Adding coverage for ISO 27001 programs
- Clarification that any reference to certification in marketing materials (e.g., website) cannot contain any misleading or ambiguous statements relating to the scope of certification (e.g., products/services included in certification, locations, etc.)

Our Certification Services:

You may also be interested in our other world-class certification services. We provide certification for:

- Quality (ISO 9001)
- Aerospace Quality (AS9100, AS9120, AS9110)
- Environmental (ISO 14001)
- Health & Safety (ISO 45001 – conformance only)
- Cyber Security (ISO 27001 – conformance only – ANAB Accreditation Pending)
