

NADCAP® & QUALITY FOR PROCUREMENT

ABOUT THE COURSE

This one-day Nadcap & Quality for Procurement training is aimed at the individuals who are responsible for the various Purchasing and Contract Review functions in their organization. This course will provide you with the necessary knowledge to comprehend the various quality functions imposed by 9100 and Nadcap. The course covers the following:

Aerospace Quality overview

What is Nadcap?

Contract Review

Outsourcing

Risk Analysis - FMEA

Internal and Nadcap Audit Prep Overview

RCCA Overview

Problem Solving Tools

Course Objectives

- Will assist individuals with previous procurement and contract review related experience to better grasp the different advanced functions required by a high-profile quality environment and be able to relate them to their own work environment.
- To provide individuals without previous procurement training with informative insight on what is needed to know to better understand the knowledge requirements for an Aerospace Procurement function.

Who should attend?

- Those with a minimum of knowledge into the Procurement functions that are necessary to maintain a strong Contract review and outsourcing function adapted to its work environment and aligned with the company Quality policies and objectives.
- Managers responsible to supervise the various procurement and outsourcing functions in their organization.
- Manager in Procurement and/or Quality that would like to refresh their knowledge with up-to-date information from the Aerospace Quality community.
