

NADCAP® AUDIT PREPARATION - CHEMICAL PROCESSING

ABOUT THE COURSE

The two-day Nadcap Audit Preparation - Chemical Processing course provides a complete overview of Nadcap requirements related to the Chemical Processing audit.

After clarifying the role of Nadcap, Performance Review Institute® and Nadcap audits in the management and oversight of Special Processes in the Aerospace sector, the Instructor covers the topics below:

The Chemical Process Task Group and the role it plays within Nadcap as well as who is on the Task Group.

Review of the AC7108 & Supplemental Checklists to clarify the requirements of each section of each checklist. The Instructor also presents information on frequently found problems as well as explanations of current requirements and interpretations from the Task Group.

Preparing for the audit through a description of the planning needed during the six months before the audit, which also details actions that must be taken such as a self-audit and sending advance information to the Auditor.

What should happen during a Chemical Processing audit, from the moment the Auditor arrives until he leaves after the closing meeting.

After the audit is complete, including critical timings, an explanation of the failure process and how the Supplier Merit Program works.

“LEARNED A LOT OF INFORMATION ABOUT THE AUDITS FOR NADCAP IN A WAY THAT I COULDN'T SURMISE JUST FROM THE REQUIREMENTS & CHECKLISTS.”

Course Objectives

- Present the structure and format of a Nadcap Chemical Processing audit
- Assure an understanding of the content and intent of all sections of each checklist used
- Review the common findings and provide examples of how to meet requirements

Who should attend?

- Those who have general oversight responsibilities for Nadcap audits, or supporting them
- Those who are new to Nadcap
- Those who need to understand, or to confirm their understanding of what should be happening during Chemical Processing audits
