

THE INTERNAL AUDITOR & INTERNAL AUDIT SYSTEM

ABOUT THE COURSE

The one-day **Internal Audit System** course walks through the process of building a new internal audit system or starting over after a catastrophic failure. The course explains how to structure the essential elements of the system for success as well as the vital relationship between Quality and Management which is essential to a successful system. The Instructor covers:

Why we need Statistical Process Control

Construction of an Internal Auditing System

Development of an Internal Auditing System

Deployment of an Internal Auditing System

Setting the stage for a successful Internal Auditing System

The one-day **Internal Auditor** course picks up where the "Internal Audit Systems" course leaves off and walks through the process of choosing, training, and managing internal Auditors. It presents the "How To" of performing internal audits and what to do with the results. It not only provides training for internal Auditors, but for the entire action team. The Instructor covers:

Improving the Internal Audit System

Authority for the Internal Audit System

Monitoring the Internal Audit System

Doing the audits

Managing the Auditors

"EASY TO HANDLE AND FULL OF USEFUL AND POTENTIAL SKILL SETS FOR THE FUTURE."
